

Natural products for humans & animals

- Food supplement**
- 4900 – COLONY Linseed Oil for horses
 - 4920 – COLONY Linseed Cake
 - 4905 – COLONY Linseed Oil for dogs

- Hoof care**
- 4516 – COLONY Hoof Balm
 - 4520 – COLONY Hoof Oil
(100% Laurel oil)
 - 4521 – COLONY Hoof Oil

- Leather care**
- 4502 – AMBIS Saddle Soap
 - 4542 – AMBIS Leather Fat
 - 4547 – AMBIS Leather Oil
 - 4548 – AMBIS Boot Care

- Protection against insects**
- 4818 – COLONY Insect protection
(for horse and rider)
 - 4819 – COLONY Insect protection
(for angler and rider)
 - 1784 – COLONY Moth protection

- Wood protection**
- 229 – DONNOS Paddock stain
(available in 4 colors)

*Independent testing, guaranteed quality

The independent laboratory **LUFA ITL (Kiel)** of the AGROLAB GROUP has successfully tested LIVOS COLONY linseed cake for nutrients, heavy metals, dioxins, furans, genetic engineering, mycotoxins and pesticides. The complete test reports can be found online at: www.livos.co.uk

Our guiding principles

- Sustainable business
- Closed material cycles
- High technical quality
- Consumer awareness and freedom of choice
- Acting for the benefit of the customer
- Consistent environmental protection

Our product ranges

- Protection & care for interior wood
- Protection & care for wood outdoors
- Natural wall design
- Cleaning and maintenance for household & business
- Pollutant cleanup & mould removal
- Creative design for big & small
- For allergy sufferers and odor-sensitive people
- For dogs, horse & rider and nature lovers

Linseed cake

cold pressed, ready to feed

The advantages of linseed cake as feed – especially when changing coats:

- ✓ Shiny coat and healthy skin
- ✓ Supports the metabolism
- ✓ Contains valuable nutrients
- ✓ Rich in Omega 3 fatty acids
- ✓ Improves digestion
- ✓ With stomach-friendly mucilages

The advantages for the health of your animal

Linseed cakes, like the linseeds themselves, contain valuable ingredients. The high proportion of the polyunsaturated omega 3 fatty acid "alpha-linolenic acid", the high-quality vegetable protein and the valuable mucilage in the seed coat are particularly beneficial. Furthermore, the also called linseed flakes contain, among other things, lecithin, vitamin B1, vitamin B2, vitamin B6, vitamin E, folic acid (*vitamin B9*), pantothenic acid (*vitamin B5*), antioxidants, minerals and amino acids such as lysine. Linseed cakes thus promote health in several ways.

The water-soluble and water-insoluble mucilages contained in linseed cakes have a softening and soothing effect on the mucous membranes and form a protective layer. They thus support the regeneration of the stomach and intestines and improve gliding properties. Furthermore, linseed cakes regulate the intestinal flora, promote the multiplication of good microorganisms in the intestine, support the absorption of nutrients and counteract digestive disorders (*diarrhea, constipation*).

The unsaturated fatty acids of linseed have an anti-inflammatory effect and strengthen the immune system. In addition, just like the vitamins and minerals, they ensure a healthy, intact skin, a shiny coat and a smooth coat change.

With their high fat and protein content, linseed cakes are especially beneficial and recommended for feeding older, sick and difficult to feed animals and during rearing.

5 kg	4,00 €
10 kg	8,00 €
25 kg	17,49 €
500 kg	upon request

prices incl. 7 % VAT

Analytical components:

Crude protein.	32,2 %	Starch.	6,7 %
Crude fat.	14,4 %	Crude ashes.	5,0 %
Crude fibre.	9,3 %		

Dogs, cats

ME (metabolisable energy)..... 14,2 MJ/kg

Horses

ME (metabolisable energy) 12,3 MJ/kg

DE (digestible energy)..... 15,1 MJ/kg

Cattle

ME (metabolisable energy) 12,3 MJ/kg

horses up to 20 g per 100 kg body weight daily,
large dogs up to 10 g daily,
small dogs and cats up to 5 g daily,

Please note: Each animal, its housing and nutritional status must be considered individually – therefore LIVOS does not assume any liability for correct application, dosage and feeding. In order to determine the ideal dosage for your animal, please contact your veterinarian, alternative animal health practitioner or nutritionist.

General feeding recommendation:

Quality-tested linseed cakes directly from the producer

At LIVOS the linseed cakes are produced with the help of a traditional linseed oil press. Only high quality and pure linseeds are used, from which linseed oil and linseed cake are obtained as a by-product in a very gentle cold pressing process. The press residues – linseed cakes or also called linseed flakes – are mainly used in the animal feed industry due to their health-promoting properties.

Production at low pressure and low temperature has the advantage that the health-promoting and temperature-sensitive ingredients are preserved. Our linseed cakes are made from 100% linseed and contain no preservatives, flavors or additives. Linseed cakes are easy to handle, they can be fed dry and do not need to be ground, boiled or soaked. At LIVOS, the bagging of the linseed cake is done exclusively by hand, thus guaranteeing strict control and best quality.
