## Cleaning and maintenance for household & business

### Pure purity

LIVOS cleaning and maintenance products emphasize the beauty of your surfaces. Whether for basic cleaning, new coats or renovations, whether for cotto or stone, wooden floors or household surfaces – our products clean and maintain naturally.

## For all surfaces, for all purposes

The TRENA Neutral Cleaner is suitable for the **regular cleaning** of households, offices, schools, kindergartens, medical practices, cars, etc. For **shine renewal** and – in case of linoleum or cork – for the preservation of the surface elasticity use GLANOS Natural Liquid Wax Cleaner once after every forth cleaning with the TRENA Neutral Cleaner. For **basic cleaning**, use the LATIS Intensive Cleaner.

## For interior tiles made of cotto, stone, marble and clay

The GLOUROS Cleaner is ideal for cotto, stone and clay tiles, i.e. acid-resistant stone surfaces indoors and outdoors, such as **tiles, walls or gravestones**. Acid-sensitive stones, such as marble, granite or soapstone, can be impregnated with the ALISA Stone Oil after cleaning with TRENA pH-Neutral Cleaner to obtain a water- and dirt-resistant protective layer. **Lime residues** on cotto can be removed with the GLOUROS Cement Veil Remover.

After drying, cotto tiles must be saturated with an oil, e.g. the KUNOS Natural Oil Sealer, to give them a **hard-wearing protective layer**. For clinker cotto please use the KERACOTT First Care.

LIVOS products accentuate the natural beauty of the surfaces. Depending on the porosity they deepen or preserve the color, give a matt shine and make the surfaces easy-to-clean provided that no glaze layer has been applied to the tiles beforehand.

The protective stone-oil layer and the thin wax wear layer are constantly protected by a proper cleaning and care. In areas exposed to greater mechanical stress, it is advisable to maintain frequently.

## The difference: your health

LIVOS CLEANERS consist of natural, washing-active substances, such as Indian soap nuts, natural fatty acids and / or proteins, and vegetable oil soaps. The advantages of LIVOS products for your health are manifold:

- Free of flame retardants
- Free of nanoparticles
- Free of "substances of very high concern" (SVHC)
- Free of microplastics
- Advantageous for the room climate

## Do you have any questions?

We are happy to advise you. You can reach the LIVOS service team via:

## Application examples of LIVOS products

From professional craftsmen and enthusiastic amateurs

KUNOS Natural Floor Sealer N° 241

### Baha'i Centre of Learning, Australia

The concrete of the 950 m<sup>2</sup> dome in Australia was treated with LI-NUS Firnis No. 260 and KUNOS Natural Oil Sealer No. 244.

### I.S.K. corp, Japan

Naturalness and simple elegance characterise this living space design. KALDET Woodstain No. 270 was used for the various wood elements in the interior.

KALDET Woodstain No .270
