

Tips & ideas

Protection & care for cotto, stone, screed

Order no.: 1170-7 - as of November 2019

Tiles without glaze are very absorbent and get dirty very quickly without the right treatment/impregnation. Stains caused by water, grease, etc. are practically impossible to remove. We therefore recommend removing limescale from terracotta floors etc. and treating them with an oil impregnation in order to create a water- and dirt-repellent layer, which can be additionally waxed (*not obligatory*).

By proper cleaning and care with LIVOS products, the layer on top of the tile, the so-called "wear layer", is kept intact. The resulting antistatic finish reduces dust pollution and improves the indoor climate.

All LIVOS products suitable for these substrates are DIN-tested (*German Industrial Standard*) and also suitable for classrooms and children's rooms in accordance with DIN EN 71 Part III. In case of general sensitivity to solvents or odor sensitivity, please note the LIVOS neutral product range. On the reverse side you will find an overview of various products suitable for these areas.

Further information can be obtained from your LIVOS distributor or directly from LIVOS. You can also use our website www.livos.de and our hotline **+49(0)5825 - 88 30**.

Cotto tiles

Result

Deep-acting, hard-wearing and water-resistant coating

Deep-acting oil pre-treatment and wafer-thin wax layer

Pre-treatment

- No. 244 KUNOS Natural Oil Sealer

- No. 260 LINUS Wood and Cotto Oil

Finish

- No. 244 KUNOS Natural Oil Sealer

- No. 303 BILO Floor Wax

Acid-sensitive natural stones and granite

Result

Easy-care, silk-matt, water- and dirt-repellent surface

Impregnating, color intensifying surface

Treatment

- No. 202 ALISA Stone Oil

- No. 264 MELDOS Natural Resin Hardening Oil

Solnhofen slabs and terrazzo

Result

Impregnation

Pre-treatment

- No. 264 MELDOS Natural Resin Hardening (*silk-matt*)

Finish

- No. 264 MELDOS Natural Resin Hardening (*silk-matt*)

Clinker cotto

Result

Water- and grease-repellent, silk-matt layer

Treatment

- No. 380 KERACOTT First Care

Screed

Result

Silk-matt, elastic, opaque and water-resistant layer

Treatment

- No. 607 GORGO Natural Concrete Floor Paint

Cleaning and maintenance

Pre-treatment

- No. 1808 GLOUROS Cement Veil Remover
- No. 1862 KUNOS Floor Maintenance
- No. 375 BIVOS Oil Wax
- No. 1878 KUNOS Maintenance
- No. 551 LATIS Intensive Cleaner
- No. 556 TRENA pH-Neutral Cleaner
- No. 559 GLANOS Natural Liquid Wax Cleaner

Result

- Tiles free of streaks and cement residues
- Gloss renewal
- Wafer-thin wax film, without essential oils
- Wafer-thin wax film
- Intensively cleaned surfaces
- Gentle cleaning
- Cleaning care

Pollutants from synthetic paints contaminate our indoor air and often lead to diseases of the immune system and allergic reactions. Healthy interiors therefore require the use of products that are safe for health. LIVOS is the first industrial manufacturer to offer paints and stains made from natural and health-friendly raw materials, combining the highest technical quality with a convincing visual effect, consumer health and environmental protection for more than 45 years.
