For allergy sufferers and odor-sensitive people

LIVOS neutral – Because you are important to us

Whether for prevention or for building-related illnesses and allergies: **LIVOS neutral** is the perfect choice for particularly high demands on odor and allergen free products.

Let us advise you and try it out!

The LIVOS neutral product range

As an allergy sufferer or odor-sensitive person, you face the challenge of finding health-friendly products when buying paints, varnishes, care and cleaning products. Therefore LIVOS has developed the LIVOS neutral product range. It is odorless and **avoids allergenic substances** whenever possible.

Odorless and allergy- friendly

In order to guarantee the suitability of the natural paints, varnishes, care and cleaning products for allergy sufferers, LIVOS cooperates with external institutes, which **test** the products scientifically and in detail **for allergens contained** in them. In addition to physical tests, the raw materials are also subjected to an **odor test**. Thus we guarantee a constant selection of the best quality for a maximum of purity and odor neutrality.

Sensitive people react very differently to certain substances. So it can happen that, although allergens subject to labelling do not cause you any problems, you may still have to avoid some other ingredients.

With LIVOS this is no problem: With help of the **full declaration**, that can be found on every product and in the technical data sheets, you can retrace the composition of each product in detail.

Blocking off, renovating and preventing

We offer products for effective **mold removal** without polluting the room with questionable chemicals, marble pit lime for particularly **moisture compensating and hygienic walls** and masking shellacs which, for example, stop the emission of wood preservatives. Unfortunately LIVOS neutral products are currently not available for outdoor applications due to the stresses caused by wind and weather and the resulting criteria for the raw material selection.

"That smells pleasant
and neutral!"

Do you have any questions?

We are happy to advise you. You can reach the LIVOS service team via:
