

TRENA pH-Neutral Cleaner No. 557

Application range	Interior: washable surfaces in the home – oiled and waxed wooden floors, tiles, laminate, plastic and painted surfaces. Fragrance-free: TRENA pH-Neutral Cleaner No. 556, the same formulation without lemon oil. Not suitable for: untreated wood and untreated wood-based materials.
Technical qualities	A fresh citrus scent while mopping: it comes solely from the lemon oil it contains and fades as soon as the surface is dry. Highly concentrated: 10 ml are enough for 10 l of mopping water – one litre thus makes 1000 l. pH-neutral (approx. 7). Surfactants entirely of plant origin. Free from synthetic fragrances and colourants. Fully declared – including the substances that need not be named.
Full declaration	Water, reetha (soapnut) extract, sugar surfactant, citric acid, sodium benzoate, lemon oil. According to the Detergents Regulation (EC) No 648/2004: AQUA, SAPINDUS MUKOROSI PEEL EXTRACT, ALKYL POLYGLUCOSIDE C8-C16 (COCO GLUCOSIDE), CITRIC ACID, SODIUM BENZOATE, CITRUS LIMON PEEL OIL. Non-ionic surfactants below 5 %; preservative: sodium benzoate. Contains limonene – a natural constituent of lemon oil.
Dosage	Routine cleaning: at most 10 ml (1 tablespoon) to 10 l of mopping water. Wipe damp, not wet. Heavy soiling: 1 part cleaner to 5 parts water. At this concentration the cleaner softens oil and wax layers – test on an inconspicuous area beforehand.
Gloss refreshing	On oiled and waxed floors use GLANOS Natural Liquid Wax Cleaner No. 559 instead of the neutral cleaner at every fourth to fifth cleaning.
Specific gravity	approx. 1.03 g/ml.
Safety advice	The product is not classified as hazardous under the CLP Regulation and carries no hazard labelling. Avoid contact with the eyes. The citric acid it contains may irritate the eyes; after eye contact rinse with water for several minutes. Lemon oil contains natural fragrance substances which may cause skin reactions in sensitive people. Do not swallow, never decant into food containers and keep out of reach of children.
Disposal	According to local regulations. Product residues: household waste. Emptied polyethylene (PE) containers via recycling collection.
Container sizes	0.05 l; 0.25 l; 1 l; 2.5 l; 30 l.
Storage	Cool and dry. Unopened shelf life at least 5 years; use opened containers within one year.
Notes	Dosage Dosed too high, the cleaner can leave the surface matt or rough. If in doubt, dose more sparingly and wipe more often. Turbidity Sediments can settle out of the plant-based raw materials. They do not affect the quality – shake before use. Before oiling If a cleaned surface is to be oiled again, it must be dry and free from cleaner residues; otherwise the oil soaks in unevenly.
