Protection & care for interior wood

LIVOS and wood – a perfect match out of
love for nature

Wood radiates warmth and gives furniture, stairs and floors a unique, individual character. For permanently beautiful and functional surfaces, LIVOS offers a high-quality and mature product range that protects both, your health and the environment.

Floors and stairs

The selection of the right products for **heavily used surfaces** such as floors and stairs is crucial for maintaining value. With LIVOS products for interior use, the maintenance and renovation of wooden floors and stairs is done in no time. For the removal of running marks or for renewing the shine, no sanding is necessary.

No matter if **colorless or colored** – we offer the right oil or natural oil sealer for all requirements for the professional coating of floors or stairs. Are you a lover of **waxed surfaces**? If so, the semi-solid and liquid beeswaxes are the right choice. BIVOS Oil Wax is suitable for the aftercare of oiled surfaces.

Furniture

In the trade, the expression "leached, oiled, waxed" often means that the surface is virtually untreated. For an effective protection against water, red wine and other stains we therefore recommend to treat the surface with suitable LIVOS oils. The KUNOS Furniture Oil, the KUNOS Natural Oil Sealer and in the kitchen the KUNOS Countertop Oil offer an effective protection.

To **reduce electrostatic charges and for more "firm grip"**, we recommend an aftercare with GLEIVO Beeswax or ALISA Hard Wax.

For the treatment of **furniture, toys and playground equipment** in children's rooms the LANON Toy Stain (*satin glossy*) or the BODIOS Hydro Wax Stain (*silk matt*) in natural as well as bright colors are suitable. Both products are **resistant to sweat and saliva** according to DIN 53 160 and suitable for toys according to DIN EN 71.

A **hard-wearing and abrasion-resistant surface** is obtained by subsequent treatment with the KUNOS Natural Oil Sealer. The KALDET Transparent Wood Stain or the LANDIS Shellac is particularly suitable for the treatment of cabinet interiors and drawers, as they are odorless.

Maintaining with LIVOS

Wooden surfaces finished with LIVOS products receive a timeless and long-lasting beauty through regular care.

- For oiled and painted surfaces DRYADEN Furniture Polish
- For waxed surfaces the BIVOS Oil Wax
- For oiled floors the KUNOS Maintenance
- As mop water additive the GLANOS Natural Liquid Wax Cleaner
