DARIX Transparent Furniture Stain No. 297

Ordner Nr.: 1273-1 · Last update: August 2019

Primer for solid wood furniture

DARIX Furniture Stain No. 297 is suitable for untreated solid wood and veneered surfaces, including cabinet interiors and can be used as an open-pore primer. It is resistant to saliva and sweat and suitable for toys.

It can be applied with a glaze paintbrush, a sponge or by spraying. The room air should be dry and at least 12 °C warm. Currently, there are eight different colour shades which can be mixed among each other. You find the colour examples on the back.

For more information, in particular on the appropriate LIVOS primers, please refer to the Technical Data Sheet which can be found on our website: www.livos.co.uk. Do you need a personal consultation or do you have questions about our products? Then contact us via our hotline: **+49 (0) 5825-8830**.

Processing note

With a brush (stain paintbrush), sponge or by spraying (undiluted) at temperatures above 12 °C (54 °F) and in dry room air conditions. Nozzle: 1.3 mm; pressure: 2-3 bar

Coverage

1 liter (1.06 quart): For 16 – 33 m² (172 – 355 ft²), i.e. 41ml/m², for spraying approximately 40 m² (430 ft²), i.e. 25ml/m². Coverage could be considerably higher, depending on the condition and absorbency of the surface.

Coverage could be considerably less, depending on the condition and absorbency of the surface.
