URA Coloring Paste No. 424

Order Nr.: 1235 · Last update: September 2019

Breathable surfaces

The URA Coloring Paste No. 424 is suitable to tone the LIVOS Natural Dispersion Paints No. 412 / 413 as well as the DUBRON White Plaster No. 465.

The URA Coloring Paste is currently available in 24 different colors. Inside of this sheet you can find 168 color shades.

The 8 light color shades with only a small quantity of 0.05 l URA Coloring Paste No. 424 are especially suitable for ceilings and less colored rooms in natural light tones.

The breezy pastel tones with a quantity of 0.125 l URA Coloring Paste No. 424 mixed with 5 l DUBRON Natural Dispersion Paint No. 413 are meant for a color scheme in gentle, elegant pastel tones.

Strong colors that contain a high portion of URA Coloring Paste No. 424, can be used for the decoration of single walls or individual design elements.

For more information, in particular on the appropriate LIVOS primers, please refer to the Technical Data Sheet which can be found on our website: www.livos.co.uk. Do you need a personal consultation or do you have questions about our products? Then contact us via our hotline: +49 (0) 5825-8830. **Hotline: +49(0)5825-8830.**

Processing note

For coloring

For tinting, mix the required amount of URA Coloring Paste No. 424 thoroughly with the same or twice the amount of the wall paint of your choice: DUBRON Natural Dispersion Paint No. 412, DUBRON Natural Dispersion Paint No. 413, ALBION Natural Wall & Ceiling Paint No. 417, or DUBRON White Plaster No. 465. Then add this mixture to the remaining amount of wall paint and stir thoroughly until an even color is achieved. Using a stirring device is advantageous. Assess the color with the help of a test coat, which is completely dried.

As a full-tone paint

The surface must be dry, stable, absorbent, neutral, clean, free of separating agents, cracks, efflorescence and mould. Only recommended on surfaces that do not have to be wipe-able and/or abrasion-resistant. Not suitable for damp areas such as kitchens and bathrooms. 2-3 orders are usually required.

Coverage

1 liter (1.06 quart): For 6 m² (65 ft²) per coat, i.e. 167 ml/m². Depending on the intended purpose and the desired color intensity: Look at the examples on the color charts. As a full-tone paint depending on the surface. Determine the exact amount needed by doing a test application.
