Solid wood kitchens

Ordner no: 1170-2 · as of July 2021

Solid wood kitchens radiate warmth and comfort – they often are the heart of an apartment or a house.

Kitchen furniture is usually made of different types of wood: The corpus and the fronts are usually made of softwoods – i.e. the supporting or visible parts. Countertops are often made of maple, beech or beech multiplex. But whether from deciduous or coniferous woods, whether industrially manufactured or handcrafted: With LIVOS, any untreated substrate can be oiled or stained and obtain and keep almost any desired color and surface property.

Solid wood surfaces are hard-wearing, water-resistant and antistatic when saturated with oil and treated the way that a layer is formed. They are easy to freshen up. If there is a strong influence of light, make sure to provide UV protection with colored oils or top coats. With the right maintenance,

the surfaces remain protected from water, grease and other contaminants. LIVOS offers the right oils, waxes, stains and glazes for the respective wooden surfaces, mechanical durability and design requirements. Furthermore, we offer a LIVOS neutral program with odorless products, distinguished by specially selected raw materials, which is particularly suitable for allergy sufferers, odor-sensitive people and people suffering from environmental illnesses.

Further information can be obtained from your LIVOS distributor or directly from LIVOS. You can also use our website www.livos.co.uk and our hotline +49(0)5825 - 88 30.

Cleaning Gloss

- No. 556 TRENA pH-Neutral Cleaner

Renewal

- No. 559 GLANOS Natural Liquid Wax Cleaner

Pollutants from synthetic paints often lead to allergies and diseases of the immune system. LIVOS is the first industrial manufacturer to offer paints and stains made from natural and health-friendly raw materials, combining the highest quality with the protection of man and nature for more than 45 years. As far as technically possible, we do not use any solvents in the manufacture of LIVOS neutral products, at least no orange oil or essential oils. Your LIVOS distributor or our service team will be pleased to give you further information on the processing of the LIVOS products. Please also refer to the technical data sheets for the individual products.
